Objet : Projet éolien Saint Sulpice-les-Feuilles

Avis défavorable

Mesdames, Messieurs,

Je souhaite exprimer mon opposition à ce projet éolien.

Une présentation des enjeux paysagers mensongères ??

A lire la conclusion du rapport de la MRAe, il faut considérer que l'étude est volontairement incomplète et essaye de « cacher » des impacts négatifs sur les paysages bocagers :

« Globalement, la MRAe considère que l'analyse des impacts du projet sur le paysage n'évalue pas à un niveau suffisant les enjeux du projet aux échelles proche et éloignée ; qu'ainsi la démarche de réduction des impacts paysagers du projet sur les sites emblématiques et touristiques de l'aire d'étude doit être poursuivie. »

Première richesse touristique de notre région sont les paysages préservés, les bocages d'antan qui sont devenus très rares en France et qui offrent un vrai potentiel touristique et notamment pour le « tourisme vert » !! Le développement éolien non seulement porte atteinte à la biodiversité (avifaune et chiroptères) mais également à l'harmonie des paysages !!

Arrêtons de répéter les mêmes erreurs et interdisons les projets éoliens dont les éoliennes portent un impacts visuels trop important sur notre première richesse touristique de notre région.... Les bocages intacts !! Les conclusions de la MRAe semblent suffisamment accablant pour porter un avis négatif sur ce projet éolien.... Je vous salue très reconnaissant de prendre en compte ces inquiétudes (et surtout sanitaires !) et d'émettre un avis défavorable au projet éolien sur Saint Sulpice-les-Feuilles ! Je vous prie de croire en ma considération respectueuse,

Carl Dunning-Gribble
